I am a digital gardener and I build experiences on the web. I can turn an idea seed into a full product tree, or if you already have a product tree, I can turn it into a forrest.

WORK EXPERIENCE

SDE - Founding Engineer Hybr1d

07/2022 - Present

Bengaluru, India

Make IT and HR easy

Achievements/Tasks

- Leading the frontend team and overseeing the frontend hiring process.
- Built the MVP from scratch in 2 months using React and built the landing page using NextJS.
- Setup modern libraries and tooling for our codebase, established best practices, made our internal UI library called Hybrid UI and setup the complete CI/CD pipeline using Github Actions, S3, CloudFront and Route 53.
- Built APIs for our services using Node.
- Helping companies manage their company in a hassle free manner through our B2B SAAS for their IT & HR needs.

Frontend Developer GreedyGame

09/2021 - 07/2022

Bengaluru

All-in-one solution for all your app monetization and user acquisition needs

Achievements/Tasks

- Built various dashboards for publishers and internal services with Data Visualisation.
- Added new user facing features in a popular web game.
- Improved the lighthouse scores for the landing pages of few of our applications.
- Added various new components for our internal UI library called GG-UI and improved our frontend tooling (e.g switching to esbuild from webpack) and thus improving our build time by 70%,etc.
- Mentored few interns on code quality and best practices.
- Built few internal services using Go.
